

# STRENGTHENING GRANT APPLICATIONS WITH KNOWLEDGE USER ENGAGEMENT: CONSIDERATIONS FOR CIHR, MSFHR AND BEYOND

**WEDNESDAY AUGUST 18, 2021  
12:00 - 1:00 PM (ON ZOOM)**

Many grant competitions, including the CIHR Project Grant and most Michael Smith Foundation for Health Research opportunities, now require or strongly encourage engagement of knowledge users in grant applications and research project plans. Knowledge users vary based on context, but typically include community members, patients and families with lived experience of a health issue, health care providers, and health system administrators as active partners in the research process.

The BC SUPPORT Unit Fraser Centre specializes in engaging these knowledge user groups for health research, and has expertise in building engagement and knowledge translation plans into grant applications. This webinar will offer tools to help you strengthen your approach to engagement and effectively communicate that approach to review committees.

Please join us on Wednesday August 18th from 12:00 PM - 1:00 PM to learn more, or contact Brittney Schichter, Research Navigator, at [blapietr@sfu.ca](mailto:blapietr@sfu.ca) for more information.
