## Directed Readings/Directed Research Application

| Student Name:  |                 |                           | Da                   | Date:         |                |  |
|--|-----------------|---------------------------|----------------------|---------------|----------------|--|
| Student Number:  |                 |                           | SFU Email:           |               |                |  |
| Current Unit total:  |                 |                           | Term:                |               | Course #:      |  |
| Directed Booding/Di  | rooted Decearch | Courses taken             |                      |               |                |  |
| Directed Reading/Directed Reading/Direct | Semester        | Instructor                |                      |               |                |  |
| Course # / Ivallie   | Semester        | mstructor                 |                      |               |                |  |
|  |                 |                           |                      |               |                |  |
|  |                 |                           |                      |               |                |  |
| Describe the focus and the scope of the work (e.g., what will be the topic of the directed studies? Note that it must not overlap with regular course offerings. Also, what work will the student undertake? e.g., weekly readings, data analyses etc.).   |                 |                           |                      |               |                |  |
|  |                 |                           |                      |               |                |  |
|  |                 |                           |                      |               |                |  |
|  |                 |                           |                      |               |                |  |
|  |                 |                           |                      |               |                |  |
|  |                 |                           |                      |               |                |  |
|  |                 |                           |                      |               |                |  |
|  |                 |                           |                      |               |                |  |
|  |                 |                           |                      |               |                |  |
| NAM  |                 |                           |                      |               | `              |  |
| What will be the basis of evaluation? (e.g., a paper, poster, presentation, discussion of readings).   |                 |                           |                      |               |                |  |
|  |                 |                           |                      |               |                |  |
|  |                 |                           |                      |               |                |  |
|  |                 |                           |                      |               |                |  |
|  |                 |                           |                      |               |                |  |
|  |                 |                           |                      |               |                |  |
| Who will be responsible for supervision of the project? ( If a graduate student or post -doc is providing some supervision, please provide their name and position. Please not e that supervision of the directed studies is the primary responsib ility of the faculty supervisor ).  |                 |                           |                      |               |                |  |
|  |                 |                           |                      |               |                |  |
| How often will the fact that person meet with  |                 | neet with the student? If | there is a secondary | supervisor, h | now often will |  |
|  |                 |                           |                      |               |                |  |
| Approval:  |                 |                           |                      |               |                |  |
