

# EXPLORE OUR RANKINGS

**#3 IN THE WORLD FOR  
SUSTAINABLE CITIES  
AND COMMUNITIES**

Times Higher Education 2024 Impact Rankings

We know you care about the climate crisis, and we do too. At SFU, you'll learn more about sustainability in your field of study, make a difference through research, clubs and volunteer work and get unique, hands-on experiences—like Tianna Sequeira, an undergraduate student who landed a sustainability-focused co-op position at the Canadian Space Agency.

"Our driving question is, how can we decrease the impact our technology has on the earth? I've always wanted to work in aerospace, but I want to do so by bringing a clean tech and environmental perspective to the industry."

– Tianna Sequeira, School of Sustainable Energy Engineering

**#3** IN THE WORLD FOR  
CLIMATE ACTION

**TOP 20**  
IN THE WORLD

Times Higher Education 2024 Impact Rankings

We provide an excellent, well-rounded education, with a diverse range of programs and research opportunities. You'll have room to explore all your interests, and we will support you every step of the way.

"[My program] gave me the freedom to design things I was interested in, inspired me to try experimental approaches and encouraged me to push myself further as a designer, while also giving me the chance to build my professional network."

– Justin Yu, School of Interactive Arts and Technology

**#1** CANADIAN

World University Rankings for Innovation, 2024

**\$150M** IN RESEARCH  
INCOME IN 2023

Have a big idea you want to share with the world? We provide dedicated programs and mentorship to help students achieve their entrepreneurial dreams. As one of Canada's fastest-growing research-intensive universities, our students and faculty are creating cutting-edge innovations and making a name for themselves on the world stage. For example, Benjamin Britton, Director and Co-Founder of Ionomr Innovations, founded his company—recently named to the Global Cleantech 100—while conducting research at SFU.

"Once we had a preliminary business model together and the initial team formed, everything accelerated far more quickly than I could have imagined."

— Benjamin Britton, Department of Chemistry
