

P resident of Tahsis Company, on Vancouver Island, which you helped build from the primeval forest to make wood products, you have been a leader and innovator in British Columbia's lumber industry for over thirty years. You have always been able to see both the forest and the trees, and consequently able to devise innovative technologies for making use of lumber while conserving the timber stand.

Mr. J. J. Jensen, being the son of a maritime nation, Denmark, has led to your
