they graduated with an SFU undergraduate degree from any faculty by the end of Summer 2022 (completion term). Registration data are taken at the official reporting date (generally end-of-week-3) each term. Where possible, faculty is adjusted to current faculty structure. *Source: IRP.*

12. Time to Baccalaureate Degree Completion. Includes students completing their first SFU undergraduate degree. Time to completion is measured as the number of terms that pass from first undergraduate SFU admission to completion (inclusive), including non-registration terms. Students are assigned to departments and faculties based on their programs and major-level plans at graduation. Students may belong to more than one department or faculty. Data are grouped by fiscal year of convocation. Analysis is restricted to students admitted since 1990, who were in an undergraduate degree program in their first term (at official reporting dates). *Source: IRP.*

13. Time to Graduate Degree Completion. The number of terms to complete the degree is a simple count of the terms from program start to graduation, including terms of non-registration. For students who transferred between a diploma and a master's or a master's and a doctoral program within the same department, the time to completion is calculated based on entry into the first program. For students who transferred from a different program, the time to completion is based on the first term in the new program. Completion year is based on the fiscal year in which the degree was awarded. For master's degrees, the non-thesis option includes other types of capstones (e.g. project, examination, portfolio, extended essay) as well as non-capstone programs. Special Arrangements students are excluded. *Source: IRP – graduate retention database.*
