6. Credentials Awarded. The number of credentials awarded by fiscal year, based on the date of convocation. If a student graduates with more than one credential within the same department, that student is counted once under each credential. Course grades are mapped to a department based on the subject-faculty combination. Grades data

TA) is equivalent to eight contact hours of teaching assistant instruction. The FTE calculation is based on face-to-face instructor contact hours in ALL sections taught by TAs, not just sections at the .00 level. Contact hours delivered in directed studies courses are excluded. TA base units were derived from snapshots of MyINFO data one point in time in each term in the fiscal year and derived from standard hours entered into the system for the TA, the position entry date, and the expected end date. The department to which TA base units are allocated is determined by the department entered on the TA appointment form, which in some cases may be the Dean's Office, in which case the TA base units would be included in the Faculty total. Includes TA contact hours in HIST and LBST courses. *Source: MyINFO*.

INSTRUCTIONAL DELIVERY

- 16. Number of Course Sections Taught. Only sections at the primary (.00) section level are included. Excludes directed studies, distance education, open labs, practicum/co-op, thesis, independent study, capstone, internship sections. Courses taught together (i.e. concurrent) are counted as one section. The section level is determined by the course section with the higher enrolment. Includes HIST and LBST courses.
