

## Academic Information Report - Department of Humanities

### STUDENTS

All data in this section are reported based on the fiscal year, which consists of the summer, fall and spring terms. Unless otherwise stated, data are as of the end of the third week of classes each term, except for enrolments in the summer session, which are as of the end of the first week of summer session classes.

## STUDENT SUCCESS

- 6. Credentials Awarded.** The number of credentials awarded by fiscal year, based on the date of convocation. If a student graduates with more than one credential within the same department, that student is counted once under each credential. For Master's degrees, the non-thesis option includes other types of capstones (e.g. project, examination, portfolio, extended essay) as well as non-capstone programs. Undergraduate Certificates includes the following: Medieval and Renaissance Studies; Religious Studies. Masters includes the following: Humanities; Liberal Studies; Hellenic Studies. Prior to 2018/19, the Department of Humanities administered the Asia-Canada program. The program was renamed to Global Asia and moved to the Department of History. Data for previous years has been restated to reflect this change.  
*Source: IRP – credentials awarded database.*
- 7. Time to Baccalaureate Degree Completion.** Includes students completing their first SFU undergraduate degree. Time to completion is measured as the number of terms that pass from first undergraduate SFU admission to completion (inclusive), including non-registration terms. Students are assigned to departments and faculties based on their programs and major-level plans at graduation. Students may belong to more than one department or faculty. Data are grouped by fiscal year of convocation. Analysis is restricted to students admitted since 1990, who were in an undergraduate degree program in their first term (at official reporting dates). *Source: IRP.*
- 8. Time to Graduate Degree Completion.** The number of terms to complete the degree is a simple count of the terms from program start to graduation, including terms of non-registration. For students who transferred from a diploma to a Master's or from a Master's to a Doctoral program within the same department, the time to completion is calculated based on entry into the first program. For students who transferred from a different program, the time to completion is based on the first term in the new program. Completion year is based on the

## Academic Information Report - Department of Humanities

Course grades are mapped to a department based on the subject-faculty combination. Grades data are as of July 2, 2024. *Source: IRP.*

- 11. Graduate Retention Statistics (by year of Admission to Program).** Data excludes students who withdrew from their programs before the end of the third week of classes of their first term. Early withdrawals are students who withdrew from their program after the third week of classes of their first term and before completing their second term. Withdrawals include students who transferred to another program at SFU, except students who transferred from a Master's to a Doctoral program within the same department, who are only reported under the Doctoral program. Percentages may not add up to 100% due to students who withdraw or complete in more than the specified number of years (6 for Master's, 8 for Doctorates). Data is reported based on elapsed time since starting the program, including terms of non-registration. Metrics based on data with less than five students is masked for privacy and/or identification reasons. Includes students in the following programs: Humanities; Liberal Studies; Hellenic Studies.

**23. Original Budget.** The original budget is provided along with a normalized budget figure. Original budget amounts prior to 2002/03 are unavailable. Benefits budgets were decentralized from central university to faculties/departments in 2005/06. Figures are inclusive of use of carryover amounts. Original Budgets have been "normalized" to improve the comparability of differential financial realities across the faculties. The normalization was achieved by the following means: CFL complement salaries have been normalized to remove the effect of age and rank structure differences between faculties and the presence of market differentials in some departments; the original budgets for the Faculties of Education and Busin
