MATH 801 Computer Algebra

__Instructor Michael Monagan

Tuesdays/Thursdays 2:30-4:20pm, Spring 2023.

This document was created in Maple!!

How do computer algebra systems like Maple do algebra and calculus?

Here are two of the algorithms we will learn in this course.

_1: Factoring polynomials with integer coefficients

+ * - * -32* +12* +30* - * 3+11* 2-10* +2
:=
9
 + 7 8 - 5 7 - 32 6 + 12 5 + 30 4 - 7 3 + 11 2 - 10 + 2
()
$$\left({}^{3}$$
 - 3 + 1) $\left({}^{4}$ + 7 3 + 2 - 1) $\left({}^{2}$ - 2)
