Calculus III PRIME

MATH 251 PRIME is designed for students who have demonstrated mastery of the concepts covered in Calculus II. Prime sections are intended to create a sense of collaboration amongst students with an aptitude and passion for mathematics.

Prime sections are   more difficult, nor are they more work than standard offerings.
Prime sections have the   as their standard counterparts, but

Students with grades of   or better in   may request direct enrollment by emailing the undergraduate advisor (*math_advice@sfu.ca*). Students must attach a copy of their   in their correspondence.

Students who do not meet the minimum A
