

ConeTec – Digital Seismic Module

Status: Filled

Group Members: Christopher Van Vugt, Alexander Maljaars, Dave Taye, Edwin Saberon

Sponsor(s): Roque Obusan

Supervisor(s): Amr Marzouk, PhD, P.Eng, Senior Lecturer, Mechatronic Systems Engineering

Project Description

ConeTec is an international full-service geo-environmental and geotechnical site characterization contractor. We offer clients superior project management and site investigation services across the globe, with a large presence in the Americas and Australia.

We are looking for a team to create a next generation seismic module to enhance our digital product offering of geotechnical instrumentation. We would like a seismic module researched, designed, and constructed to interface with our downhole data acquisition equipment.
