

# Switch Mode Power Supply Family for Integration into Automated Test Equipment (ATE)

**Status:** Available

**Group Members:** TBD

**Sponsor(s):** Greenlight Innovation

**Supervisor(s):** Amir Niroumand, Postdoctoral Fellow, Mechatronic Systems Engineering; Erik Kjeang, PhD, Assistant Professor, Mechatronic Systems Engineering; Farid Golnaraghi, PhD, PEng, Professor, Mechatronic Systems Engineering

## Project Description

About Greenlight: Greenlight Innovation's product line includes fuel cell test stations and test equipment for batteries, reformers, ultracapacitors, electrolyzers and hybrid electric vehicles.

Since 1992, Greenlight has supplied hundreds of battery test systems and fuel cell testing
