

## PHYSICS Safety Training

**Required for all PIs in this department:**

[Respectful Working and Learning Environments](#) – complete once

[Supervisor Safety Training](#) – complete once

[EHS Safety Essentials](#) – every 3 years

[EHS Laboratory Safety](#) – every 3 years

**For labs with biohazards:**

[EHS Biosafety](#) – every 3 years

[Biosafety Training for Principal Investigators](#) – complete once

[PHAC module: Introduction to Dual-Use in Life Sciences Research](#)- complete once

[PHAC Module: General Safety for Containment Labs](#)- every 3 years

**For labs with BSL2 biohazards:**

[PHAC Module: Containment Level 2 Operations Practices](#) – every 3 years

**For instructors of teaching labs with biohazards:**

[PHAC Module: Biosafety in the Classroom](#)- every 3 years

**For labs with radiation:**

[Radiation Safety Training](#)- complete once

[Radiation Safety Training for Principal Investigators](#)- complete once

[Radiation Safety Refresher Training](#) – every 3 years

**For labs with X-Ray equipment:**

[X-Ray Safety Orientation](#)- every 3 years

**For labs with laser equipment:**

[Laser Safety Orientation](#)- every 5 years

**Optional training that is useful but not mandatory:**

[Office Ergonomics Training](#)

[SFU Asbestos Awareness](#)

[Chemical Storage Refresher Training](#)
