

SENATE COMMITTEE ON UNIVERSITY PRIORITIES

Wednesday, March 6, 2024

2:00 p.m. - 4:00 p.m.

STRAND HALL 3101

Attendance: Peter Hall (Chair), Mary O'Brien,

A committee member asked if the successful candidate will have responsibility as a curator of the collection. R. Green note2 (e)-3 9oaeaa

A committee member noted that it is great to see this coming forward. The cost of inflation is far above the 2% limit, and there is a large gap between what we can take from students.

A committee member noted that the inflation rate set by the government does not align with the actual cost of inflation. They also noted that in recent visits from accreditors, there have been questions regarding our lab fees. This suggests it is taking place at other institutions in Canada, but not here. However, these institutions are mostly Ontario.
