5. Inference (Chapters 14, 15 and 16). Concepts related to the construction of confidence intervals (e.g. confidence level, width, interpretation, the effect of sample size) are discussed. Also basic concepts related to the testing of hypotheses (e.g. hypotheses, p values, statistical significance) are presented.
6. Estimation and Testing for One Sample Problems (Chapters 18 and 20 of text). Procedures for means and proportions are discussed with an emphasis the interpretat ıose

Each student is responsible for his or her conduct as it affects the University community. Academic dishonesty, in whatever form, is ultimately destructive of the values of the University. Furthermore, it is unfair and discouraging to the majority of students who pursue their studies honestly. Scholarly integrity is required of all members of the University. <http://www.sfu.ca/policies/gazette/student/s10.01.html>

ACADEMIC INTEGRITY: YOUR WORK, YOUR SUCCESS
