

*Final Exam

There will be no make-up midterms.

* You must pass the final exam in order to pass the course.

A UHYf]U'g

R can be accessed via Jupyter, an online platform, at <https://sfu.szygy.ca/>. Alternatively, R Studio and R statistical software can be downloaded free of charge from <https://www.rstudio.com/> and <https://cran.r-project.org/>, respectively.

Required Textbook:

. by Tim Swartz. Publisher: Pearson.

ISBN: 978-1-269-73721-0

iClickers will be used in this course

Students with Disabilities:

Students requiring accommodations as a result of disability must contact the Centre for Accessible Learning 778-782-3112 or csdo@sfu.ca

Tutor Requests:

Students looking for a Tutor should visit <http://www.stat.sfu.ca/teaching/need-a-tutor-.html>. We accept no responsibility for the consequences of any actions taken related to tutors.

SFU's Academic Integrity web site <http://www.sfu.ca/students/academicintegrity.html> is filled with information on what is meant by academic dishonesty, where you can find resources to help with your studies and the consequences of cheating. Check out the site for more information and videos that help explain the issues in plain English.

Each student is responsible for his or her conduct as it affects the University community. Academic dishonesty, in whatever form, is ultimately destructive of the values of the University. Furthermore, it is unfair and discouraging to the majority of students who pursue their studies honestly. Scholarly integrity is required of all members of the University. <http://www.sfu.ca/policies/gazette/student/s10-01.html>
