

STATISTICS 811-2

STATISTICAL CONSULTING I

Summer 2005
DAY COURSE

Instructor: Ian Bercovitz

Course Description:

This course is designed to give students some practical experience as a statistical consultant. We will review some non statistical issues that arise in everyday consulting. Students will meet with clients, analyze data sets and produce summary reports.

There will be weekly presentations approximately 15-20 minutes in length on various non statistical issues in consulting.

Data sets will be presented and open class discussion of possible analysis methods will follow.

Prepare a bid for a contract and invoice.

Prepare a 3 - 5 page paper relating to statistical consulting and 20 - 30 minute presentation.

Grading:

A grading scheme will be announced by the instructor at the beginning of the semester.

Students should be aware that they ha
