

I went to City University of Hong Kong, situated at Kowloon Tong MTR Station and located relatively close to Festival Walk. My major is Communication. While I was at City University of Hong Kong, the majority of my courses were under the Asian and International Studies department. And like SFU, City University of Hong Kong does have three campuses- the main one is the Kowloon Tong campus!

I arrived in Hong Kong on December 29, 2015. Student Residence began on January 4th and ended on May 23rd, 2016. My first day of class was on January 9th and last day of class was during the last week of April. I had lived in one of the newer residence buildings, except it was a bit farther than the rest of the residence buildings. Since all of my classes had in-class finals, I did not have any exams during the exam season at City University of Hong Kong.
