

Call for Cybermentors

Our friends at eng•cite want to connect girls across BC with mentors in STEM through an online program called Cybermentor! They are currently looking for female professionals in all STEM fields to help inspire girls from Grades 8-12 by connecting with them once a week from April to June, through a secure online platform. If you're interested in becoming a mentor, please contact Alexis Lytle at alexis.lytle@ubc.ca.

Work with the NSERC CWSE Network!

The National Network of [NSERC Chairs for Women in Science and Engineering](#) is currently seeking to fill two positions: a Performance Management Strategy Advisor who will design a performance strategy for the five Chair programs, and a student Statistical Analyst who will compile a report on girls and women's participation in science and engineering. Both of these positions are extremely rewarding, and will allow your work to directly benefit girls and women in STEM. [Learn more about job opportunities with the NSERC CWSE](#). Please share these opportunities with your networks!

150Days of Canadian Women in STEM

[hErVOLUTION](#), a Toronto non-profit that encourages girls and young women to pursue careers in STEM.

Be an Ally for Women in STEM!

If you've been on social media at all lately, you've probably seen the term "ally" floating around - it's been popular, especially in a time when people are eager to show their support of various minority and racial groups. But what does being an ally mean, and how does allyship function?
