Mars InSight Mission Landing

Yesterday the NASA InSight lander landed on Mars at 11:52am. Their mission is to investigate the surface of the planet including its pulse and temperature. It landed at Elysium Planitia, which are smooth plains on Mars, so it will be able to stay still and quiet on the mission so it can better read the planet's vital signs. You can learn more about this mission and watch the landing [here](#).

In this episode, Bella Kazwell, Web Engineering Lead at Asana, a leading web-based work management system, tells host Danniele about her work at Asana. She describes how she got her dream job and gives advice for all STEM professionals. You'll also learn about the struggles she has faced - and overcome - as a woman in tech. Listen [here](#).
