February 16: Engineering Explorations 10

Grade 10 girls – join Geering Up for an exciting day of exploration. Get creative and participate in fun engineering activities. Participate in engineering activities, learn engineering concepts, connect with other like-minded students and talk to current engineering students and professionals who will share their stories and experience. More info [here](#).

February 25: PyCascades

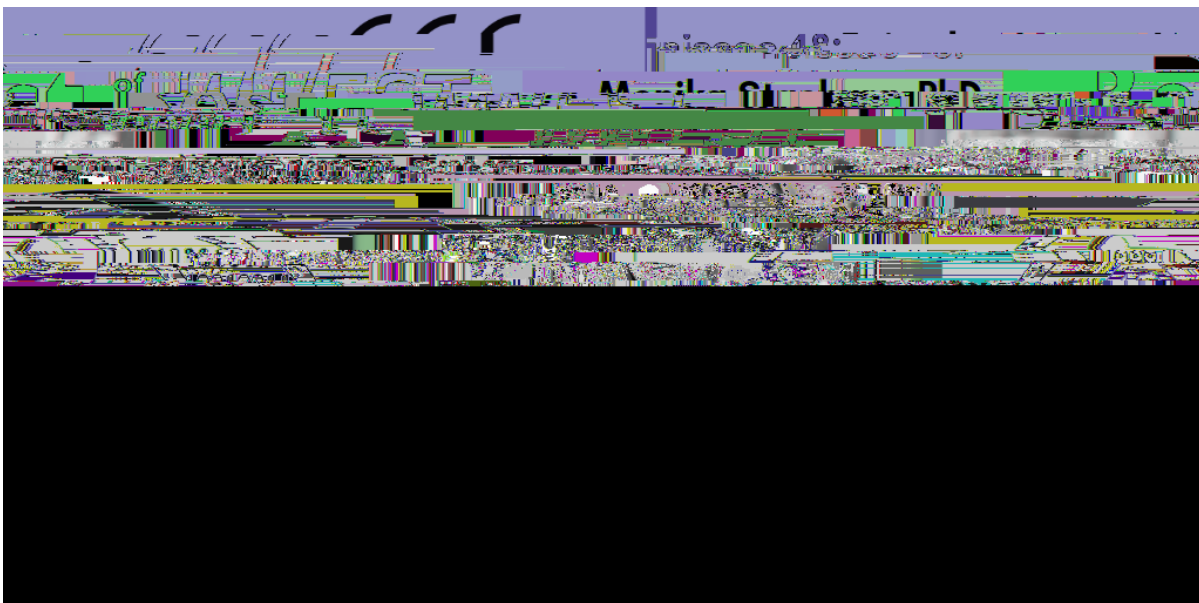

Blog Post

When *Black Panther* came out early last year the world was introduced to Princess Shuri, portrayed by Letitia Wright, a spunky and sarcastic 16-year old who also happens to be a brilliant tech inventor. Read the latest installment of the Depictions of Women in STEM series [here](#).

Best of the WWEST Podcast

In this episode, you'll hear from Monika Stachura, PhD, about her career as a research scientist and her important work coordinating the UBC program IsoSiM (Isotopes for Medicine and Science) at the University of British Columbia. She also fills us in on how to have a successful interdisciplinary career and how STEM research is heading in a more interdisciplinary direction. Plus, she tells us about her active life outside of work, what she would do if she weren't in her current field, and how to use your network to make connections and thrive. Listen [here](#).
