

Ella Chan joins host Danniele to talk about all sorts of topics, including starting university and the importance of balancing the A in STEAM (Science, Technology, Engineering, Arts and Mathematics). She tells us about how she became interested in a career in STEAM and even what it's like behind the scenes of her YouTube channel, Sci-Files. Plus, she reveals the nerdy things she does in her spare time and gives great advice for those starting out in university. Fun fact: Ella was also a keynote speaker at [Creating Connections 6.0](#) on May 4, 2019. You can listen to this episode [here](#).
