

Welcome to 2016 everyone! We're so excited to share our new website (and new newsletter) with all of you. Please take some time to visit www.wwest.ca where you will find information about our program, news, events, and resources for a variety of audiences. Our hope is that this site will support our community of advocates and allies for diversity in STEM, and that means you! If you have any suggestions or resources you think would be valuable to share, please let us know at wwest@sfu.ca.

APEGBC is hosting a Women in Leadership Series starting in January with a webinar and concluding in March. [Click here](#) to f u
