The annual UBC Gender Equity & STEM Conference is scheduled to take place virtually on Saturday November 14th from 9:15 am to 2:45 pm. The main goal of this conference is to advance dialogue around gender inclusion and equality in STEM fields, specifically with regards to women and other gender-oppressed communities, and equip attendees with the inspiration and motivation to tackle the STEM gender gap in their own spheres. Topics will include the stigma and bias women and gender-oppressed communities face when pursuing careers and education in STEM, how these communities have made a positive impact on the world through STEM, how the gender gap in STEM can best be addressed through policy and innovation, and the societal, health and economic impacts of addressing this gap. Learn more and register [here](#).

## November 4: The Success Luncheon 2020

Join Dress For Success on Wednesday, November 4th, as we celebrate amazing women. Be inspired as they share their stories of success and the challenges that they have overcome in their lives and in their careers. By joining this virtual luncheon you will be contributing to Dress for Success Vancouver's community of everyday superheroes. A community that strives for gender equity by helping women into and back into meaningful employment during this economic crisis. Learn more and register [here](#).

## November 6-26: CCWESTT 2020 Speaker Series

The Canadian Coalition of Women in Engineering, Science, Trades and Technology Conference Committee is pleased to bring you the CCWESTT 2020 Virtual Speaker Series. Once a week, throughout the month of November, they will be hosting virtual speaker sessions featuring prominent women in the Engineering, Science, Trades, and Technology fields. Sessions are just \$20 each! Join CCWESTT as they Engage, Advance, and Inspire! Learn more and register [here](#).

## November 7: UBC Engineering & SALA Open House

Explore what a degree in engineering, design, or architecture can offer you! In addition to live presentations about Admissions and UBC Engineering, drop-in booths for each engineering discipline and Student Teams and Clubs, there will be a Women in Engineering Student Panel and an Indigenous Student Panel for high school students to further connect with current students. Students, parents, and teachers are invited to join virtually on Saturday, November 7. Learn more and register [here](#).

The YWCA High School Mentorship matches young women, non-binary and trans youth in Grades 11 and 12 (mentees) with volunteer women-identified professionals (mentors) for a one-to-one mentoring relationship. YWCA's mission is to support youth in their transition to university, nurture their leadership ability, and address the barriers and adversity they may experience in their advancement in employment and in the workplace. Share your experience and provide guidance and support to help shape the career of a young woman, non-binary or trans youth in your community. Learn more [here](#).
